

Theories of Personality: A Zonal Perspective (Value Pack w/MySearchLab)

MySearchLab provides students with a complete understanding of the research process so they can complete research projects confidently and efficiently. Students and instructors with an internet connection can visit www.MySearchLab.com and receive immediate access to thousands of full articles from the EBSCO ContentSelect database. In addition, MySearchLab offers extensive content on the research process itself including tips on how to navigate and maximize time in the campus library, a step-by-step guide on writing a research paper, and instructions on how to finish an academic assignment with endnotes and bibliography. Theories of Personality or Personality Psychology. In place of the historical, categorical, and research methods of teaching personality, Berez maps theories and research onto a grid that allows readers to analyze and compare. Instead of learning theoretical terms or analyzing research findings related to a particular theory, students will evaluate and compare personality constructs in different zones of interdisciplinary research. This approach facilitates both comprehension and retention, making sense of an encyclopedic volume of theories and research.
