

Morlac: The Quest of the Green Magician

Conjured from the sea by the dark magic of the Green Magician to defend their village from invaders, Morlac is a being tormented by his own dual past, and under the spell of the wizards wicked daughter. Can he save them all...and himself? His journey across exotic lands, armed with his magicked sword Shark and his shell shield, is an epic sword and sorcery adventure. Tormented by conflicting memories, Morlac is at war against his own nature as much as the multitude of enemies he faces in his homeland and beyond. Searching for his own identity as well as for the sorcerer who abandoned him, Morlac encounters new friends, dangerous enemies, many exotic lands and supernatural terrors. Morlac is involved in a romantic triangle with the Green Magicians daughter, Kadrana, as beautiful as she is dangerous, and Glendauna, a young woman Morlac later meets who is a Durkesh Warrior with a dark secret of her own. MORLAC is a highly original novel with plenty of action, humor, and romance. Its compelling narrative and highly visual style will appeal to fans of Robert E. Howards Conan. At 125,000 words and comprised of three connected books, its scope and range of high adventure is truly epic in nature. Originally published by NAL/Signet Books, it has never been available as an eBook...until now! Gary Alan Ruse has reversed a modern publishing trend by providing an entire trilogy in one volume. Ruse writes with a lively yet remarkably descriptive style that is highly readable without being unsophisticated. To put it another way, the flavor of the text makes it clear that while Morlac has far more brawn than intellect, the same isnt true of Ruse. Though the novel is unquestionably light reading, the level of craftsmanship is considerably higher than might be expected in that category. Review in DRAGON MAGAZINE
