

The Spider in the Laurel

The Spider in the Laurel combines elements of Indiana Jones adventures and Jason Bourne thrillers with a V for Vendetta dystopia, and an American Gods fantasy. The Spider in the Laurel is the story of history teacher, Rafael Ward, in a world that has outlawed the basis of most of our history: religion. When Ward is forced to take a job destroying the relics he cherishes, it will take the uncompromising faith of an outlaw as an ally, and the acceptance of his guilt for his mothers death, to help him break free of the governments yoke. If hes lucky, he might just prevent the coming apocalypse, for which this secular future is completely unprepared. The Spider in the Laurel straddles the line between simple adventure fun, and the kind of novel which can force a reader to question his or her own beliefs.
