

Restless Shadows

Anna was touched by death as a teenager when a difficult family life convinced her suicide was the answer. From there she met death, not the bright light version but a dark shadowy grim reaper. After surviving the attempt, death left her a present. She could see where it would strike next. This gift made living hard. During a college expedition to Europe, she decides to face her fears and the creature who tainted her sight. Nick watched his sister taken from their home when he was a boy. He'd seen death in his home and with his mother. Everything in his life seemed spoiled by the creature he believed existed. When he meets Anna, he becomes more convinced that facing the creature is the only way to get his life back. Anna and Nick start a romance they hope will take them through the darkness. Unfortunately Anna has other suitors. A professor has his heart set on Anna with murderous connotations. Death also longs for the lady he left behind.
