

## Stan: The Awakening

A controversial New York artist is entangled in a dramatic clash between good and evil. Ever since he survived his suicide attempt, New York artist Stan Foster has not been himself. Plagued by amnesia and a head full of visions of death and destruction, he claws his way through a life he doesn't recognize. The search for his true identity leads him to believe he is Satan: spit out from the bowels of hell to live among the mortal inhabitants of earth. Is he delusional, or is there truth behind this troubling revelation? Stan must piece together who he was with only clues he stumbles across. Eventually, he must decide if he wants to remain who he used to be or become someone new. Stan's psychiatrist, Abigail, is committed to help him find his true identity. She too must overcome her troubled background to offer him the redemption he is after. A brilliant literary piece of the supernatural, redemption and love. Stan is a masterfully crafted and suspense-filled story about evil, love, and the power of redemption. Deep, intriguing and full of soul-searching, this satisfying mystery thriller will keep you captivated from the first page to the last.
