

# The Rehabilitation of Partner-Violent Men

Drawing on an extensive body of literature, The Rehabilitation of Partner-Violent Men presents an historical account of the policy changes that have led to rehabilitation programmes for male perpetrators of intimate partner violence within the criminal justice system. Presents a review of the current state of male partner-violence theory and related intervention programmes in the UK Draws on both national and international literature within the field Provides an overview of the theoretical foundation behind current approaches to the rehabilitation of partner-violent men Offers an appraisal of the effectiveness of current practices and directions for future advances in intervention and evaluation science
