In the final book of the Civil War trilogy that began in Book One: Emancipation, and Book Two: Rebellion, Ella Lantry has thrown in her lot with humanity. She decided her obligation to save mankind from the wanton predations of the vampires is more important than her own personal tragedy. But will her fellow rebels allow her to advocate for peace? Her vampire husband, Pace, is one of two people who knows where her son was abandoned a decade before. Both men refuse to help her in her search. Both men have done unforgivable things. In order to reconcile with God, though, Ella must find her way through to forgiveness or a deeper understanding. And her search for her son will never end until he is found.
