

To Catch a Dreamer (The Dreamland Trilogy Book 1)

Jim Miller thought that lucid dreaming would just be a way to have some fun, pick up the girls of his dreams, and have his way with them. That was before he found out that dreams were shared, and hes one of the few self-aware beings in a Dreamland filled with unconscious wubbas. Now hes locked in battle with the master Dreamers who dont allow anyone to challenge their plans for the landscape of dreams, and who ruthlessly suppress newcomers with their power and organization. Join Jim in this action and humor-packed trip across the landscape of Lovecrafts Dreamland, where things have changed immensely since the simpler times when Randolph Carter visited. Youll never feel quite the same about your own dreams again.
