

Raydark

On the world of Denall, there is a problem that even its wisest minds cannot solve. The powerful Hordes of Calion rule over the inhabitants with an iron fist. To those who dare to oppose their oppressors comes swift punishment. Among those exiled to a distant outpost to work at forced labor, a newcomer appears and begins to inspire and unite his fellow prisoners. A rebellion ensues, leading to the capture of a valuable warship and escape from their incarceration. They flee to Denall, there attempting to unite its denizens and prove to them that fighting their adversaries can succeed. But what they do not realize is that their foes will go to any lengths to prove victorious. And losing this battle will mean not only their lives, but seal the fate of the galaxy...
