

Exploited Earth: Britains aid and the environment (Aid and Development Set)

How do types of aid differ? Why are there different kinds? When is one more appropriate than another? How can you tell good aid from bad? Friends of the Earth commissioned Teresa Hayter, author of Aid as Imperialism and Aid: Rhetoric and Reality, to examine Britains aid policy and practice, paying particular attention to its effects on the worlds forests. In this book she describes the history of the different forms of aid and their effects. On behalf of one of the Wests most effective environmental lobbies, Exploited Earth show how and why British aid needs to change. Originally published in 1989
