

## Classics of International Law: De Foro Legatorum (Volume 21)

De Foro Legatorum Liber Singularis: A Monograph on the Jurisdiction over Ambassadors in Both civil and Criminal Cases, by Cornelius van Bynkershoek. In one volume, containing An Introduction by Jan de Louter, a Photographic Reproduction of the text of 1744, with a Translation by Gordon J. Laing, a List of Errata, and Indexes. It is hoped that the series will enable specialists as well as general readers to trace International Law from its faint and unconscious beginnings to its present ample proportions, and to forecast with some degree of certainty its future development into that law which Mirabeau tells us will one day rule the world.
