

RCRA CFRs Made Easy

This CFRs Made Easy book provides facilities that generate, transport, store, or dispose of hazardous waste with a streamlined reference for understanding the massive and complex programs of the Resource Conservation and Recovery Act (RCRA) CFR Title 40 Parts 190-299, found in a four-volume collection of the regulations. The author groups the Acts key requirements into three main types of activity and explains the scope of the programs and the requirements, identifying key actions a facility must take and referencing particular parts of the law where the requirements are specified. He also includes sample forms and explanations of the information required on each, contact information, information-packed appendices, and the unique CFR index.
