

## Deep Heat

Recovering in hospital from an appendix operation, Ali Harris whiles away her time by entering magazine competitions. A few weeks later, she's delighted to discover that she's won first prize in Complete Woman magazine's Most Romantic Couple of the Year competition. There's just one problem. Ali has been dumped by her fiancé, and there's no way she can claim her prize - a romantic holiday for two in Antigua - on her own. Help is at hand in the unlikely form of Jeremy Boily Baxter, the spotty boy next door. But Ali's troubles have only just begun.
