

The Return of the Arcane Knight (The Call of Destiny Book 3)

How much could a man endure if destiny chose to take from him the people he cared most about in the world? But if it was still not enough, and fate took from him even his only son just after finding him again? For the Knight Arcane, Antares Morningstar, the time has come to say that's enough! It is time to come out of hiding, using his real name. He must find his old companions again, those men who believed he had died twenty years ago, and set out with them on the most difficult and impossible mission that they have ever decided to face!
