

Excavating the Sky

Konstantin Kulakov is a genuine poet with a subtle intelligence and lyrical power. *Excavating The Sky* is an artistic gem! Cornel West Kulakovs is a voice to be reckoned with... These are brave, bold poems, excruciatingly beautiful... The Christian Century In his debut collection of poems, *Excavating the Sky*, Konstantin Kulakov labors to relate the inner spirituality of his Russian background to the fragmentation of a market-driven New World. Whether it is his Muslim-Christian relationship, his dance with natural science, or his struggle to expose continued US raciality, Kulakov seeks the contradictions in everything, mixing words to bring-out sparks. What emerges is a spiritual language that resists the exclusionary tendencies of the 21st century and offers subtle flashes of possibility.
