

Timeless Marine

When an ancient and immortal desert warrior settles in New York City he finds himself in the midst of the struggle between England and the rebellious American colonies. He becomes one of the first recruits of the Continental Marines formed in Philadelphia in 1775, and fights many battles on sea and land. He becomes so enamored with being a Marine that he rejoins the Corps repeatedly under different guises for the next two-hundred and thirty years, serving with great distinction throughout. The story takes us up to the present time following his great adventures as he assembles a group of other immortals who become his very close friends. Over time they all become dedicated physically and mentally to their country and the world at large, and create the Society of Eden in order to achieve a better world for all.
