

Picking up the Pieces

After staying home for her first two years of college, Sawyer Jameson is now ready to join her best friend at State and get a fresh start. Her original plan to leave for college right after high school was uprooted and caused more damage than intended. Knowing she might run into her past in the new city, instead she ran right into the arms of Preston Wright. It didn't take long and she was finding happiness and enjoying the journey. Sawyer and Preston were growing close, but the past was never far behind. Secrets are revealed and questions are answered, all leaving her heart in pieces.
