

C Speed

Professor Jim Carson, on his usual run to the University where he worked is stopped by a man in a car with a very interesting proposition, would he like to travel at the speed of light? I dont see any flying pigs. Jim is persuaded to move to Fort William, the glorious sight of Ben Nevis is in full view. As is the space elevator which takes them to where the building of the Einstein is taking place. Join Jim, Captain Hays, Leo and the rest of the crew on their fantastic journey across the Galaxy; witness the creatures they meet, the ones that deceive them and the ones they help. The barbarism they encounter on another planet and the mystery helper who always seems to be around just when they need him!
