

## The Shoes 2: Pursuit of the Passage

In a world identical to ours, but small enough to fit on the head of a pin, the original story of The Shoes is a magical tale of how one night all the shoes come to life and the adventures they experience as they diligently work to change their planet to be a better place to live. Their adventure continues in The Shoes 2. While Shoe has been away, a scandal about his mysterious disappearance and his alleged involvement with gang shoes is brewing back on his planet. The shoe movie star, Rita, is sent to rescue him from Josh's world. She explains that there is a secret passageway from their planet to Josh's world. Shoe and Rita return home via this passage, but realize they have brought with them Josh and his dog, Lenny. Shoe joins with his friends again and together they attempt to send Josh back home through the passage. Their adventure takes them unexpectedly to a pond in the middle of the Mexican jungle, where they become acquainted with some rather unusual characters. The twists and turns of their winding path is full of chuckles and laughs that will delight and tickle the senses of the young and young at heart.
