A full-time cellist and part-time stripper, Suri OCallaghan views love a lot like she does unicorns. Her consuming family issues barely leave her time to sleep, much less chase rainbows. When a chance encounter gives her a night of no-holds-barred sex with her boss and his head of security, she figures its a one-time thing. Shes just glad her dry spell is officially over. She never expected to fall for two men who come complete with their own sets of baggage. Dante Torres and Jericho Davies have spent years watching each others backs. Their lives depend upon it. One night of shared sex with one of the strippers in their upscale club will change everything. They will reconsider everything: their sexuality, their trust issues, and even their own safety for a chance to make Suri a permanent part of their lives. Normal relationships are hard enough. If all three people involved have multiple identities, nutty families, and psycho stalkers, its enough to make a girl go crazy. When the end result is the chance to spend a lifetime loving the two hottest guys on the Boston club scene, the perks are to die for.
