

The Future of Asylum in the European Union: Problems, proposals and human rights

This book is based on a conference on the future of the European asylum policy at Erasmus School of Law in Rotterdam, the Netherlands. After a challenge set by the Dutch State Secretary for Justice, Ms Nebahat Albayrak, the contributions to this book focus on human rights aspects of the European asylum policy and the way the EU Member States need to cooperate in the future in order to reach results. The authors are scholars, policy makers and representatives of NGOs. In this way, many different aspects of the problems are put forward. In the introduction and the conclusion the editors evaluate the results of this broad cooperation. Valuable for academics, practitioners, policymakers and NGOs involved with European asylum policy issues.
