

Time Traveler Chronicles

Evelyn Carter, a young, struggling video news stringer, is recruited to join an elite government-run time travel agency. She and her team travel through time with the public goal of collecting artifacts lost to time and capturing historical events on video for the world to see. Along the way, she learns of a secret in history so terrifying that it must be kept hidden from the public at all costs. Lost history, top secret agendas, and a frightening future are just the beginning. Something massive is about to happen and it is up to the team to find a way to stop it. Buried deep in the past, the puzzle pieces start to fit together. For the team to stop the unstoppable, they must journey farther through time and space than anyone thought possible.
