

## Doris Lessing Stories

Included are seminal stories like *To Room Nineteen*, in which a woman reacts against the oppression of her banal marriage with dreadful results; *One off the Short List*, which traces the surprising conclusion to a seduction gone awry; and *The Habit of Loving* in which a lonely older man who takes a vivacious young wife witnesses an unexpected reversal of intimacy. Here also are two classic novellas, *The Temptation of Jack Orkney* and *The Other Woman*, exemplifying Lessing's impressive understanding of human psychology. Rich and various in mood and background - the settings range across England and France - these stories powerfully convey the uncompromising insight, intelligence and vision of one of the most ardently admired writers of our time.
