

Angels and Ministers: And Other Victorian Plays

Angels and Ministers and Other Victorian Plays by Laurence Housman - The Victorian era has ceased to be a thing of yesterday; it has become history; and the fixed look of age, no longer contemporary in character, which now grades the period, grades also the once living material which went to its making. With this period of history those who were once participants in its life can deal more intimately and with more verisimilitude than can those whose literary outlook comes later. We can write of it as no sequent generation will find possible; for we are bone of its bone and flesh of its flesh; and when we go, something goes with us which will require for its reconstruction, not the natural piety of a returned native, such as I claim to be, but the cold, calculating art of literary excursionists whose domicile is elsewhere.

Some while ago, before Mr. Strachey had made the name of Victoria to resound as triumphantly as it does now, a friend asked why I should trouble to resuscitate these Victorian remains. My answer is because I myself am Victorian, and because the Victorianism to which I belong is now passing so rapidly into history, henceforth to present to the world a colder aspect than that which endears it to my own mind.
