

The Perfect Fool

The Perfect Fool charts the progress of a collection of misfits, spread across the wide open spaces of Arizona and the narrow streets of South London, all unwittingly caught up in a quest for the Holy Grail. Mr Lewis believes he was once an astronaut; Sid and Dannys Dire Straits covers band isnt exactly filling the pubs of Streatham; Tracy travels between Las Vegas and the Mexican border, fleeing the suspicion that shes a serial killer; Bob, a Native American clown, no longer finds anything funny; Luther, an acid casualty 60s rock star, has long since forgotten the most basic chord shapes; and Peter Rugg lost a cigarette down the back of a Portobello Road sofa thirty years ago and is still looking for it. These seemingly unrelated individuals eventually collide in the deserts of the American South West, where they form an uneasy alliance. Stewart Lees first novel combines an eclectic range of characters and cultures with an instinctive comic touch.
