

IEC 60917-2 Ed. 1.0 b:1992, Modular order for the development of mechanical structures for electronic equipment practices - Part 2: Sectional ... dimensions for the 25 mm equipment practice

Defines a sectional specification for the mechanical structure of a 25 mm equipment practice to provide for dimensional compatibility at mechanical interfaces with related engineering applications. Specifies the co-ordination dimensions and pitches for cabinets, racks, subracks and chassis of all types used for electronic equipment.
